

FOR IMMEDIATE RELEASE

## ClickSafety® launches first 16-hour EM 385-1-1-2008 Online Training Course

### Online training for the U.S. Army Corps of Engineers 2008 Safety and Health Requirements Manual

**Alamo, Calif., March 9, 2011** – ClickSafety, the country’s leading provider of online construction safety training, today announced it has partnered with California State University, Dominguez Hills, a Region IX OSHA Training Institute Education Center, to offer a [16-Hour EM 385-1-1 Awareness course](#). This is the industry’s first and only online 16-hour training course based on the US Army Corps of Engineers (USACE) 2008 EM 385-1-1 safety manual (most recent edition).

The definitive course for government contracting safety compliance, [16-Hour EM 385-1-1 Awareness](#), is designed for all contractors and workers soliciting or seeking to perform work governed by Federal Acquisition Regulation (FAR) guidelines and [FAR clause 52.236-13\(c\)](#) of all federally funded, Department of Defense or component projects. The course covers 14 topics and is ideal as a stand-alone awareness course or an annual refresher. It can also be combined with 24 hours of practical training to satisfy the 40 Hour EM 385-1-1 guidelines or with the OSHA 10 or 30 Hour to meet Site Safety Health Official (SSHO) requirements. This course has been reviewed and meets or exceeds all requirements established by the Engineering Manual 385-1-1.

This awareness course helps contractors avoid penalties or the loss of government contracts from non-compliance and provides real-time training and compliance management tools.

**16-Hour EM 385-1-1 Awareness** can be purchased by calling 1-800-971-1080 ext. 195 or at [www.EM385online.com](http://www.EM385online.com) . Volume discounts are available.

#### **About ClickSafety**

ClickSafety is the leader in online training solutions for the construction industry and was the first OSHA Outreach Instructor to provide both the 10 and 30 OSHA safety courses online. We have delivered award-winning interactive safety training to more than 7,000 organizations worldwide. ClickSafety offers more courses and industry expertise than any other provider in the market, delivering nearly 300 easily-accessible, 24/7 courses – including 40-plus titles in Spanish – to help ensure employee safety and compliance.

#### **About California State University, Dominguez Hills**

California State University, Dominguez Hills (CSUDH), is part of the California State University system, the largest system of public higher education in the world. CSUDH is a national leader in distance learning, with students in all 50 states and more than 60 countries. The CSUDH OSHA Training Institute Education Center is one of only 26 institutions in the country authorized to teach federal OSHA courses, and is the only such center in the Los Angeles area.
